

REGULATIONS HARMONISED AT EUROPEAN LEVEL

LOW VOLTAGE ELECTRICAL EQUIPMENT

SCOPE

Electrical equipment intended for use at voltage ranging from 50V to 1000V for alternating current and from 75V to 1500V for direct current.

The said equipment must be built in compliance with good engineering safety practices to ensure that they do not compromise the safety of persons, pets or property, when installation and maintenance are not defective and use is compliant with the stated purpose of the equipment.
