

## REGULATIONS HARMONISED AT EUROPEAN LEVEL

# MEDICAL DEVICES

## SCOPE

The following definitions apply:

→ 'Medical device' means any instrument apparatus, appliance, software, material or other article, whether used alone or in combination, including the software intended by its manufacturer to be used specifically for diagnostic and/or therapeutic purposes and necessary for its proper application, intended by the manufacturer to be used for human beings for the purpose of:

- Diagnosis, prevention, monitoring, treatment or alleviation of disease
- Diagnosis, monitoring, treatment, alleviation of, or compensation for an injury or handicap
- Investigation, replacement or modification of the anatomy or of a physiological process
- Control of conception and whose main action is through the metabolism, but whose function may be assisted by the said means

→ 'Accessory' means an article that, although it is not a device, is intended specifically by its manufacturer to be used together with a device to enable it to be used in accordance with the use of the device intended by the manufacturer of the device.
