## Horizon 2020 Financial Instruments

Paris, 22<sup>nd</sup> January 2014

**Jean-David MALO**

DG Research and Innovation – Head of Unit "SMEs, Financial Instruments and State Aids"

HORIZON 2020

# Why EU intervention is needed

- Continued market failures and deficiencies in debt and equity markets supporting R&I and growth
- Need to encourage more private investment in growth and R&I and to complement national and regional “access to finance” schemes for SMEs
- Answering to banks/investors increasingly risk-averse behaviour in a context of reinforced prudential rules (Basel III, Solvency II) and difficult economic/financial times
- Significant gap in the market between the demand and the supply of loans and guarantees for enterprises’ growth and R&I
- Enduring difficulties for SMEs in accessing start-up / growth finance
- Equity finance scarce for early / growth-stage investments; VC fund sizes sub-critical; need to build an integrated European VC market

*Commitments in Europe 2020 Strategy, Single Market Act, Innovation Union Flagship Initiative, Action Plan on SME Access to Finance, SBA*

# About EU financial instruments

- Part of the EU instruments for **over a decade** to support real economy
- Efficient way of implementing the EU budget as they have **leverage / multiplier affects**
- Cover a broad range of interventions, such as:
  - Guarantees to mutual guarantee societies and banks lending to companies (including SMEs)
  - Equity participations for early and growth-stage investments
- Common features:
  - Aim to **improve access to finance, especially for SMEs**
  - Typically delivered via **financial intermediaries** (mutual guarantee societies, banks, funds, etc) on behalf of (or in partnership with) the European Commission, but also **directly**
  - Typically operated by the **EIB Group** (EIB, EIF), but may also be operated by **other financial institutions**

# HORIZON 2020: Dedicated "Access to risk finance" programme

- **Part of the Horizon 2020 budget (3.69%) ; will not be provided through grant funding but in the form of risk-sharing (for loans and guarantees) and by providing risk finance (equity)**
- **Objectives:** Facilitate access to finance for (1) RDI-driven/ innovative SMEs & small midcaps and (2) ambitious RDI projects carried out by a variety of recipients (companies, stand-alone projects etc.) / Addressing financing gaps: Intervention only if there are financing gaps in the R&I delivery chain (e.g., due to high risk)
- **Around EUR 2.7 billion in total** (net of administrative costs) for market-driven financial instruments
- **One Debt instrument; one Equity instrument; Accompanying measures**
- At least 1/3 of the budget shall support **RDI-driven SMEs and small midcaps**
- **Top-up budget**, from other parts of Horizon 2020 or the Multiannual Financial Framework, possible for policy-driven financing facilities addressing specific policy needs (i.e. the SET Plan implementation)

# Principles and Implementation

- Continue and refine proven facilities that have supported R&I in 2007-2013: RSFF, RSI, GIF-1
- Continue to run facilities in a demand-driven way (no earmarking; "first come, first served"), coupled with targeted awareness-raising
- Encourage top-up funding to target sectors/policies ("policy-driven")
- Keep focused on attracting private investments
- As now, Implementation via entrusted entities (EIB/EIF/other IFIs) (NB exploratory talks with other institutions)
- As before, select financial intermediaries after open calls for expressions of interest
- Complementarity with other FIs in particular COSME
- Aim for at least 1/3 of the budget to serve R&I-driven SMEs and small midcaps

## ➤ Debt finance:

### ➤ **Loans Service for R&I ("RSFF II"):**

Loans and guarantees for investments in Research & Innovation; targeted at midcaps, larger companies, research institutes, stand-alone projects, PPPs, other entities; particular approach for innovative midcaps; loan amounts above EUR 7.5 million

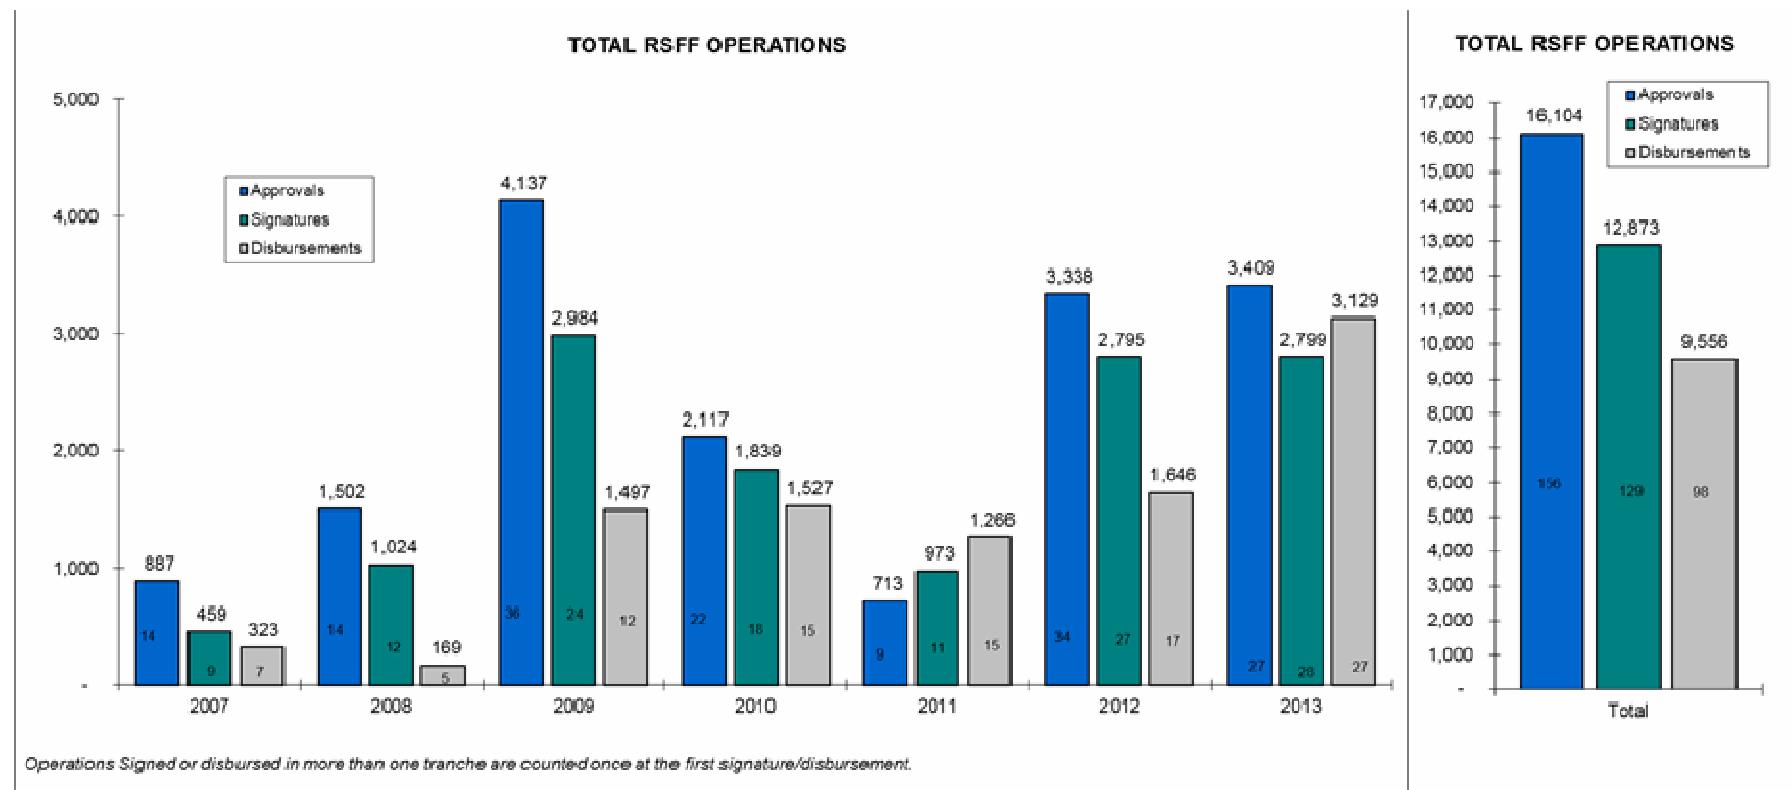

### ➤ **SME & small midcaps R&I Loans Service ("RSI II"):**

Loan guarantee facility for loans to research-intensive and innovative SMEs & small midcaps; loan amounts between EUR 25,000 to 7.5 million

### ➤ **SME Initiative (under development, called by the June European Council):** Joint Guarantee Instrument/Securitization for loans to (innovative) SMEs and small midcaps; joint approach involving European Structural &

Investment Funds (ESIF), HORIZON 2020 and COSME, with crucial support of EIB Group and Member States

# FP7 RSFF results (as of 31/12/2013)

### Cleaner engines: improving energy efficiency

- AVL: Austrian family-owned specialist with strong reputation for producing fuel-saving technologies for powertrain systems
- Offers research and development support to many major car manufacturers worldwide.
